

## Constipation a Penalty of Age

Nothing is so essential to health in advancing age as keeping the bowels open. It makes one feel younger and fresher and forestalls colds, piles, fevers, and other dependent ills.

Cathartics and purgatives are violent and drastic in action and should be avoided. A mild, effective laxative, recommended by physicians and thousands who used it, is the combination of simple herbs with a peppin sold by druggists everywhere under the name of Dr. Caldwell's Syrup Pepsin. The price is fifty cents and one dollar a bottle. For a free trial bottle write to Dr. W. B. Caldwell, 452 Washington St., Monticello, Ill.

## CHEDDAR NEWS

On Monday of last week death entered the home of Mr. Thomas McGregory and took from it the loving wife and mother, Mrs. McGregory. She had been ill a few days and although she had been in delicate health for some months, her death came as a shock to her many friends. Her life was a beautiful example of Christian patience and love, and she will be greatly missed not only among her circle of loved ones but by the entire community, in every home of which she was known and loved. Mrs. McGregory was a Miss Owens before marriage and leaves a husband and two young daughters. Funeral services were held on the following day at Cedar Grove church where she has been a member since girlhood.

Miss Gertrude Clinkcales and Earle Bruce spent last Saturday in Belton. Mrs. Zell who has been with her daughter, Mrs. Allen Mahaffey for the last three months has returned to her home in Abbeville.

Miss Janie Garlington visited the Cheddar school on Wednesday. She came up for the purpose of organizing a Tomato Club among the school girls.

Misses Mary and Kate Copeland spent Saturday night and Sunday with homefolks.

Miss Florida Kelly visited in Peter last week.

Miss Gambrell of near Hones Path is visiting at the home of Mr. M. A. Mahaffey.

Mr. Tom Watson of Pelzer spent Tuesday night with his sister, Mrs. Bob Bryant.

Mr. and Mrs. Bernard Hawkins of Long ranch and Mr. and Mrs. Sullivan of Anderson have moved near Cheddar. We are always glad to welcome new neighbors and hope they will like our community.

Last week some of our public-spirited citizens decided the "mad question" had about reached the limit and they met to discuss some method of bettering the main road along which the majority of the school children pass. The result of their plans is a wide, broad, substantial street—not a path—leading from the G. S. and A. station to the church. Cheddar is now beginning to take on the appearance of a real little town and these improvements are soon to be followed by others.

## LEGAL NOTICES

### ADMINISTRATION SALE

Terms cash. A. H. DAGNALL.

## BROGEMILL TO RUN FULL TIME

### Message From Pres. Gossett Contains Glad Tidings for Operatives.

A message was received yesterday morning from Mr. B. B. Gossett, president of the Brogemill, to the effect that the mill will start Monday running on full time.

This is a piece of very good news to the operatives of the mill, as they have been working only 40 hours a week for the past several weeks. This change will make them earn more money, and get more time in at work. Just what order of set of orders have been received for the mill is not known, but whatever has been gotten is sufficiently large to enable the mill to go back on full time.

No mention is made of whether or not there will be any overtime work done. A little extra time will come in, in a handy way just at this time, and the people of the mill will welcome the full time orders almost as much as they would an order permitting the running of the mill both night and day.

### "The Best is Yet to Be"

(Macon News.)

When Alexander the Great, that insatiable seeker of dominion, was about to penetrate Asia, he gave away all of his personal belongings, distributing them at random among his personal attendants. "Sir, what do you keep for yourself?" some one asked. "I keep hope," he replied, naming one of the three cardinal virtues. And if this was a sufficient possession for one of the mightiest captains, it should suffice today for plain, everyday Americans. With that grave gift, any one is rich, whatever the poverty of his material estate, and without it, though lapped in every luxury, one is poor indeed.

There is nothing that will sap life of all power so quickly and so thoroughly as to take from it hope. Man is a broken reed, the sport of all the winds that blow, when this divine quality has left him. Neither poverty, nor sickness, nor business disaster, nor desertion of friends, nor that ultimate enemy named death itself can vanquish one who is still able to hope. We march forward, head erect, with buoyant step through any discipline, while we are what the prophet Zachariah graphically calls "prisoners of hope."

"Hope springs eternal in the human breast," wrote Pope, who stated merely a fact, while Emerson has said that "The miserable have no other medicine but hope." A beautiful picture of hope, rosy, optimistic, inspiring, has been given us by Channing in these words: "I laugh for hope hath happy place with me."

Youth is distinctly the period of hope, of expectation. Hope has been termed by Isaac Elckerstaff, "the nurse of young desire." Normal young people are looking forward full of great anticipation, avid of life. We grow old only when that eagerness is at an end—when we are content with expectation. Years have little to do with the matter.

And by that token there are some who never grow old, for they never cease hoping. For them life is continually interesting and zestful. They meet the exigencies of this human career with unconquered optimism, knowing all the time that "the best is yet to be." As prisoners of hope they trudge along in all kinds of weather to a distant goal that shall not finally fail them. It is good to be in their company.

### A Beautiful Farewell

Speaking of the recent death of Robert J. Burdette, the great humorist, a writer says that with Burdette, the last of our great humorists passed, and none come forward to take their place. Formerly there were several notable who were known in most households in the land—Josh Billings, Bill Nye, Mark Twain, Bill Arp and Bob Burdette—names both loved and honored because of their contribution to human laughter, as well as their lighter writings. With Burdette all have disappeared, and few if any know of one who can take the place of any one of them. Each had a style peculiar to himself, and his wit was rarely classed by itself. But that these men were more than mere laugh makers, all who know them and their work are aware, and the farewell of Mr. Burdette, written shortly before his death, will stand as one of the most beautiful things in American literature. Read it carefully, as the pictures are as a still and himself in the mirror.

The shadows are deepening around the pond and the stream is slushing back to sleep. But there is yet a little light in the house, and while the water serves I will keep on writing. And by the time the sun is down and the flow in the race is not enough to turn the big wheel, the light will run out and I will have the old mill swept and tidied for the night. And then for home and a cherry cream, a quiet night, lighted with stars and pillowed with sleep, and after that, the dawning and another day, fairer than any I have ever seen in this beautiful world of rosyate mornings and radiant suns.

Sick Two years With Indigestion. Two years ago I was greatly bothered through using two or three bottles of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was not only cured, but my digestion is now perfect. Sold at all druggists.

### NEW SEAL ON GOVERNMENT ESTABLISHED IN MEXICO

(CONTINUED FROM PAGE ONE.)

at Monrovia. According to information received at United States army headquarters here today, Monrovia is 150 miles south of Eagle Pass.

The report says it is feared that Gutierrez may head an independent revolution as his recent proposition to allies' leaders was not favorably received.

Carranza Troops Withdrawing. EAGLE PASS, Tex., Jan. 27.—Villalobos are reported to be within a few miles of Eagle Pass, opposite this city, and Carranza troops are being hurriedly withdrawn from the town. Carranza's service records have been brought to the American side of the Rio Grande and the men of the Carranza National guard, left late tonight for Salinas Felipe, toward which the Carranza forces, defeated at Monrovia, also are reported retreating.

Carranza Troops Occupy Toluca. BROWNVILLE, Tex., Jan. 27.—Reports received in Matamoros tonight stated that General Pablo Gonzalez, commanding Carranza troops, has occupied Toluca, a suburb of Monterrey, and that Villa troops are preparing to evacuate the city.

General Antonio Villalobos and Carranza's forces with spring arms are reported to be on their way to the coast for an attack on Tampico.

## CASCARETS FOR COSTIVE BOWELS, HEADACHE, COLDS

To-night! Clean your bowels and stop headache, colds, sour stomach.

Get a 10-cent box now.

Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and bad colds—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a liver clogged, bowels, or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great. A Cascaret tonight straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never grip or sicken.

### SOUTHERN RAILWAY LET'S CONTRA-

Work Starts on Installation of Electrical Block Signals.

DANVILLE, Va., January 27.—Contract has been let by the Southern Railway and work has been started on the installation of electric automatic block signals in connection with the double track now being built between Pelham and Denim, N. C., 35 miles.

Forty-three signal towers will be erected. The signals will be operated by alternating current supplied by sub-stations at Danville and Greensboro and carried by a special transmission line. All stations and other railway buildings will be lighted by electricity.

The signals will be of the same type—upper quadrant, three position, now in use on the double track portions of the Washington-Atlanta line. In connection with signals now in service between Danville and Pelham and between Denim and Charlotte, the installation now undertaken will give a continuous stretch between Danville and Charlotte 141.5 miles and a total of 336.46 miles so protected of the 649 miles between Washington and Atlanta.

The force doing the work will have headquarters at Reidsville, N. C., where a storehouse for material has been established.

### ALLIES WERE PREPARED FOR GERMAN ATTACKS

(CONTINUED FROM PAGE ONE.)

guard of the Turkish army undertaking an invasion of Egypt has reached the British outposts east of the Suez Canal, where the first elements of the war in this region took place yesterday. Official reports say the clash was a small affair, only one British officer being wounded, but dispatches from Cairo declare the invaders suffered severely from the British machine guns.

The dispatches do not disclose the size of the Turkish force engaged, but say the fight took place east of El Kantara, which is on the Suez Canal, and is the terminus of the caravan route from Rafat, the border station between Egypt and Syria. The distance from Rafat to El Kantara is 143 miles, and as the British had filled all the wells along the caravan route, the invaders would have had to carry their own water. Even El Kantara is supplied by a pipeline from a fresh water stream which runs under the Suez Canal.

It is believed the lighting of the British forces was with the Arab or Kurdish horsemen employed by the Turkish as scouts for the main army under Djemal Pasha, which consists of three army corps and which is believed to have had hardly time to cross the desert. The British have a strong force to guard the canal.

Nothing has been heard of the military venture which it was reported the Germans were preparing for Emperor William's birthday, unless their attacks on the French at Ypres and on the British at La Bassée were intended as such. All official accounts agree that these attacks were very severe, but beyond this there is nothing in common between the accounts of the Allies and the Germans concerning the fighting.

The French communication tonight repeats the statement that the Germans were repulsed with heavy losses while the Germans say the British were unable to recapture their former positions.

Similar contradictory statements are made regarding the severe fighting taking place near Caronno, and Pethen in the Argonne, and in the vicinity of St. Mihiel. In all these cases both sides claim victories.

There has been increasing activity along the eastern front. The Russian there are reported to be pushing their offensive both in East Prussia and in Poland, north of the lower Vistula, while the Germans are said to have been repulsing their attacks in Central Poland. In Galicia an Austro-German force attempted an offensive which, according to the Russian accounts, did not meet with success.

Rumania, which has just received a loan of \$25,000,000 through the Bank of England, is said to be watching closely the concentration of the Austro-German forces in Transylvania, which might be used either against her or the Russians advancing through Rumania.

The loan to Rumania was advanced by the Bank of England to the Bank of Rumania against treasury bills.

### SOUTHERN POTATO GROWERS WARNED

Bureau of Crop Estimates Says Stocks in Northern States Larger Than Usual.

WASHINGTON, Jan. 27.—Southern potato growers who plan to hold their crop until the spring months were warned today by the bureau of crop estimates that "stocks" in northern States, with which they must compete, are larger than usual.

"Prices are usually low and therefore may not decline further," the bureau's statement said, "but material advances in the next few months cannot be forecast from present supplies. The United States seldom imports or exports relatively a large quantity of potatoes. Therefore the European war has no material direct bearing upon the potato market of the United States."

Of the marketable supply of potatoes of the 1914 crop, \$2.8 per bushel remained in the hands of producers or dealers on January 1, the bureau reported. This is estimated to be 105,846,000 bushels in States which produced 75 per cent of the United States crop.

### HOW TO CURE A LA GRIPPE

"Coughs that hang on" demand treatment. Stop and think! Reason and common sense tell you that it is folly to "grin and bear it." They rack the body and cause soreness and pains in the lungs yield more quickly to Foley's Honey and Tar than to any other treatment. Forty years' record of successes proves this. For coughs, colds, croup and other distressing ailments of throat, chest, lungs, larynx and bronchial tubes, you can find nothing that will compare with this reliable remedy. Sold by Evans Pharmacy.

## Kiss Your Coal Stove Goodbye!

The gas stove has the coal stove beaten a million ways.

No wood to chop, no coal to carry, no ashes to take up, carry out, and sift, leaving a trail of dirt and dust from the stove all the way out to the ash pit.

No fire to coax and cod-die. No excess heat. No waste.

Gas is a guarantee of the right kind of a fire instantly for any purpose whatever; and it's more economical, too.
